

## MADISON POLYMERIC ENGINEERING, INC.

At Madison Polymeric Engineering, we design total packages from the inside out. Today's harsh transportation environment demands dynamic packaging to solve the problems encountered by industry. That is why, for more than **30 years**, companies have called on us to manufacture cost-effective packaging solutions to protect their products.

Madison's field service and packaging engineers will work directly with you from the inception to the completion of your project. Our assistance in material selection, design and prototype generation and cost estimation will ensure that the package you receive will be right the first time!
